## MEDICINAL.

**FOR BLOOD—AND SKIN!**

A. B. C. Chemical Co.,  
Richmond, Va.  
Having for a long time suffered from the effects of a horrible blood trouble, and after resorting to medical skill and other remedies without benefit, I tried "A. B. C. Chemical Co." and have been entirely restored, and it affords me pleasure to attest its virtues. It is evidently a very great tonic and alterative, and I recommend any suffering from blood trouble, to try it.

[COMMUNICATED.]

### The Winter Solstice

To-morrow, December 21, the sun will again, after the lapse of six months, have reached the farthest limit of his declination or recession south of the equator, and be shining vertically upon the tropic of Capricorn, the lowermost edge of the torrid zone, over 4,000 distant from the latitude of Washington city.

The inhabitants of the far-off lands of the southern hemisphere will now be having their summer solstice and their longest day, and as the sun, after seeming to stand still for a day or two, commences to retrace his fervid course northward across the equator and to the tropic of Cancer, on the upper edge of the torrid zone, and at the southern beginning of the northern hemisphere, they will be commencing their summer season, corresponding to our summer of June, July and August. Their days thenceforth will gradually shorten, their nights will lengthen and their temperature will be similar to ours after the 21st of last June. While it will be the summer solstice to them, it will be the winter solstice for us, and for us the longest night and the shortest day of the year, and thenceforth our days will gradually lengthen and our nights shorten, and our cold will increase.

It is now the middle or noon of the long south polar day of six months. At the Arctic circle reversely it is the middle of the long north polar night of six months. From the 21st of the month day after day for the next six months the sun's shadow will be lengthening and his position in the heavens will reach higher and nearer to the pole star until his north polar distance is again 90 degrees, which will occur on the 22d of March.

At our winter solstice, the day will be nine hours and forty-three minutes in length—the night fourteen hours fifty-seven minutes. The sun will rise a few minutes after 7 o'clock and will set a few minutes before 4 o'clock.

We are now about 3,000,000 miles nearer to the sun than we were the first day of last July. On the first day of January the earth is said to be in perihelion, or at its nearest approach to the sun. On the first day of July it is farthest removed from him, or in aphelion. At first thought it would seem paradoxical that we should have our coldest weather when nearest the fiery luminary, but at our winter solstice, when the sun is at the farthest to the south of any other time of the year, his beams shine upon us obliquely and are scattered and, hence, cannot have the same effect as when they shine vertically and are concentrated.

But the relative positions of the sun and the earth at the winter solstice were not always as they are at the present time. About eleven thousand years ago, the earth's nearest approach to the sun was at the time of the summer solstice, consequently the temperature of the hottest midsummer days then in our latitude here in the northern hemisphere instead of being ninety and a hundred degrees, must have been at least 23 degrees higher, and the temperature of the winter correspondingly colder; and this state of things may partially account for the marine fossil remains now found so plentifully in the marl deposits of Virginia and Maryland, and which indicate that the Mesozoic sea, which once surged wraithfully along where now stand securely the cities of Baltimore, Washington, Alexandria and Richmond, and in which disported saurian monsters, immensely larger than the crocodile or alligator, was far warmer than that coast line a hundred miles away.

Audaciosa, Va. W. H. S.

**LEMON ELIXIR.**  
Its Wonderful Effect on the Liver, Stomach, Bowels, Kidneys and Blood.

## MEDICAL.

**Take**  
**Simmons**  
**Liver**  
**Regulator**  
**One Dose**  
**WORTH**  
**100 Dollars**

Dear S. L. E.—Friends: I consider one dose of Simmons Liver Regulator worth \$100. I was constipated, had headache, could eat nothing with satisfaction or appetite; had the blues and felt altogether out of sorts. I resorted to blue mass, calomel, quinine and all remedies suggest ed, but only obtained temporary relief. One dose of S. L. E. did me more good than the \$100 worth of doctors and doctoring. Respectfully,  
T. C. MARLEY

I have been a teacher for twenty years, and during that time have had repeated attacks of headache, produced by torpid liver, and I have been entirely cured by the use of Simmons Liver Regulator. I found it to be of so mild a character in its action as not to interfere, in the least, with my duties in the school room. To those similarly situated and subject to same, I cannot too highly recommend Simmons Liver Regulator. E. A. CHEEK, Campbellsville, Ky.

**HOLIDAY GOODS.**  
**A HOLIDAY STATEMENT.**

**R. C. ACTON & SON**  
Wish to say to Alexandrians that as competition grows stronger day by day between the cities of Alexandria and Washington it necessitates meeting the demands of our people in their luxurious wants. In order to supply you
